

INTL

[Redacted]

Subsequent to our letter of 30 October we received from General Eisenhower your letter of 24 October. The General forwarded it with a personal note to our Director, Mr. McCone, early in November.

We can appreciate your strong personal interest in again serving the country and therefore can only regret that we cannot now put to use the skills you offer. Please be assured that with the endorsement of General Eisenhower we did search all avenues.

Because of your desire to return to Government service may we suggest direct inquiry to the Civil Service Commission. We do not hire through the Commission but they could direct you to other Departments and Agencies in which one or another of your abilities might be used. Meanwhile, your file will be kept at hand for consideration against future requirements.

Thank you again for your interest.

Sincerely,

E. D. Echols  
Director of Personnel
